Servo Motor Guessing Game | Servo Motor, C, Nucleo Discovery Board L476RG January 2021 - May 2021

- Created a game that made users input the sequence that was pointed to on the game board.
- Used C to control the servo motor to move around the board.
- User inputted the sequence by pressing one of the buttons on the Nucleo Discovery Board a certain number of times for each number in sequence.

Skills

Projects

Languages: Java, Python, C/C++, HTML

Hardware: Arduino, Raspberry Pi

Classes

• Digital Logic Design

• Circuits Analysis 1

- Engineering Electronics
- Data Structures
- Client Systems Security

- · Computer Organization and Interfacing
- Advanced Embedded Systems
- Data Collection and Analysis
- C++ Programming for Engineers
- Computer Engineering **Fundamentals**
- Network Security
